Key rating drivers, as strengths and constraints, are provided below.

Strengths	Constraints
<ul style="list-style-type: none"> Along with widespread domestic sales channels, presence in diversified geographies providing risk mitigation Export-focused growth strategy and natural hedge mechanism of hard currency weighted revenue structure Ongoing growth in net sales and satisfactory gross profit and EBITDA margin Efficiency and cost advantages of manufacturing under one roof of Vestel City High level of compliance with corporate governance implementations Attributing high importance for research and development investments and innovation within the framework of Zorlu Holding's vision of Smart Life 2030 Established brands and notable market shares both in domestic and European market 	<ul style="list-style-type: none"> Steadiness of net working capital deficit though an improvement in 9M2020 Ongoing high debt level and short maturity profile of financial liabilities High off-balance sheet commitments and contingencies and increasing related party transactions pressuring asset quality Net foreign currency liability position though at manageable levels Despite recovery signals, noteworthy share of revaluation gains' continuity in equity Uncertainties still standing ahead due to the Covid-19 pandemic though notable profitability performance in 9M2020

Considering the aforementioned points, the Company's the Long-Term National Rating has been affirmed at **'A (Trk)'**. The Company's sales and profitability performance at 9M2020 despite tough economic conditions, high tech & massive production capacity, established brand awareness, environment friendly production approach, export power and capability to access funding resources along with the deterioration both in local and global macroeconomic indicators and ongoing uncertainties due to the Covid-19 pandemic have been evaluated as important indicators for **'Stable'** outlooks of long and short term national ratings. Sales and profitability performance, indebtedness level, maturity profile of financial liabilities, net working capital shortfall, off-balance sheet commitments, related party transactions, local and global macroeconomic indicators during Covid-19 pandemic are the major issues which will be monitored by JCR Eurasia Rating.

No separate issue rating report has been compiled as the resources obtained from the debt issues will be carried in the Company's balance sheet and has been subject to analysis in the corporate credit rating report. The issue ratings do not cover any structured finance instruments that are not recorded under balance sheet items. Issue ratings are assigned for both outstanding and prospective debt instruments and incorporate assessments until their maturities.

The sponsor support note of Vestel Elektronik has been affirmed as **(2)** considering the financial strength, financial capacity and willingness of the qualified shareholder Zorlu Holding A.Ş. and Zorlu Family to lend assistance when needs arise, this sponsor support note denotes a moderate external support possibility. Considering the Company's high-tech and flexible production power, capability to access funding sources, continuity of revenue growth, solid market presence both in domestic and overseas markets, risk management practices, experienced management structure, the Stand Alone Note of Vestel Elektronik has been affirmed as **"AB"** indicating a high level.
