NOTE 2 – BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

2.1 Basis of presentation

2.1.1 Statement of compliance

The accompanying condensed consolidated interim financial statements are prepared in accordance with the Communiqué Serial II, No: 14.1, “Principals of Financial Reporting in Capital Markets” published in the Official Gazette numbered 28676 on 13 June 2013. According to the article 5 of the Communiqué, consolidated financial statements are prepared in accordance with Turkish Accounting Standards / Turkish Financial Reporting Standards (“TAS” / “TFRS”) and its addendum and interpretations (“IFRIC”) issued by the Public Oversight Accounting and Auditing Standards Authority (“POAASA” or “POA”) Turkish Accounting Standards Board.

The Company and its subsidiaries operating in Turkey maintains its accounting records and prepares its statutory financial statements in accordance with the Turkish Commercial Code (“TCC”), tax legislation and the uniform chart of accounts issued by the Ministry of Finance. The condensed consolidated interim financial statements, except for land, buildings and land improvements and the financial assets and liabilities presented with their fair values, are prepared based on historical costs in TL.

The Group prepared its condensed consolidated interim financial statements for the period ended 30 June 2023 in accordance with (“TAS”) 34 “Interim Financial Reporting” in the framework of the Communiqué Serial II, No: 14.1, and its related announcement. The condensed consolidated interim financial statements and its accompanying notes are presented in compliance with the format recommended by CMB including its mandatory information.

In compliance with the TAS 34, entities have preference in presenting their interim financial statements whether full set or condensed. In this framework, the Group preferred to present condensed interim financial statements. The condensed consolidated interim financial statements are presented in accordance with the “TFRS taxonomy” published by POA on 4 October 2022 and the formats specified in the Financial Statement Examples and User Guide published by CMB.

The Group’s condensed consolidated interim financial statements do not include all disclosure and notes that should be included at year-end financial statements. Therefore, the condensed interim financial statements should be read together with 31 December 2022 financial statements.

NOTE 2 – BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Cont’d)

2.1.1 Statement of compliance (Cont’d)

Consolidated subsidiaries operating in foreign countries have prepared their financial statements in accordance with the laws and regulations of the countries in which they operate with the required adjustments and reclassifications reflected in accordance with CMB Financial Reporting Standards. These financial statements are based on the statutory records which are maintained under historical cost conversion, with the required adjustments and reclassifications reflected for the purpose of fair presentation in accordance with the TAS/TFRS.

With the decision taken on 17 March 2005, the CMB announced that, effective from 1 January 2005, the application of inflation accounting is no longer required for the companies operating in Turkey and preparing their financial statements in accordance with CMB Financial Reporting Standards. Accordingly, TAS 29, “Financial Reporting in Hyperinflationary Economies” issued by the POA, has not been applied in the financial statements for the accounting year commencing from 1 January 2005.

In the announcement made by POA on 20 January 2022, companies that apply TFRS should not adjust financial statements for the year ended 31 December 2021 for TAS 29 - Financial Reporting in Hyperinflationary Economies. Afterwards, no new statement was made by the POA about the TMS 29 application and no adjustment was made to the consolidated financial statements in accordance with TAS 29. As of the preparation date of the financial statements, POA did not make an additional announcement and no adjustment was made to the financial statements for 30 June 2023 in accordance with TAS 29.

2.1.2 Currency used

i) Functional and presentation currency

Items included in the financial statements of each of the Group’s entities are measured using the currency of the primary economic environment in which the entity operates (“functional currency”). The condensed consolidated interim financial statements are prepared and presented in Turkish Lira (“TL”), which is the functional currency of the parent company.

ii) Transactions and balances

Transactions in foreign currencies have been translated into functional currency at the exchange rates prevailing at the date of the transaction. Exchange gains or losses arising from the settlement and translation of monetary assets and liabilities denominated in foreign currency at the exchange rates prevailing at the balance sheet dates are included in consolidated comprehensive income, except for the effective portion of foreign currency hedge of cash flow and net investment which are included under shareholders’ equity.

NOTE 2 – BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Cont’d)

2.1.2 Currency used (Cont’d)

iii) Translation of financial statements of subsidiaries operating in foreign countries

Assets and liabilities of subsidiaries operating in foreign countries are translated into TL at the exchange rates prevailing at the balance sheet dates. Comprehensive income items of those subsidiaries are translated into TL using average exchange rates for the period (if the average exchange rates for the period do not reasonably reflect the exchange rate fluctuations, transactions are translated using the exchange rates prevailing at the date of the transaction).

Exchange differences arising from using average and balance sheet date rates are included in “currency translation differences” under the shareholders’ equity.

2.1.3 Basis of consolidation

The consolidated financial statements include the accounts of the Company, and its subsidiaries from the date on which the control is transferred to the Group until the date that the control ceases. The financial statements of the companies included in the scope of consolidation have been prepared as of the date of the consolidated financial statements and have been prepared in accordance with TFRS Financial Reporting Standards by applying uniform accounting policies and presentation.

a) Subsidiaries

The Group has control over an entity when it has existing rights that give it the current ability to direct the relevant activities, i.e. the activities that significantly affect the entity’s returns. On the other hand, the Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

In order to be consistent with accounting policies accepted by the Group, accounting policies of the subsidiaries are modified where necessary.

The balance sheet and statement of income of the subsidiaries are consolidated on a line-by-line basis and all material intercompany payable /receivable balances and sales / purchase transactions are eliminated. The carrying value of the investment held by Vestel Elektronik and its subsidiaries is eliminated against the related shareholders’ equity.

The non-controlling share in the net assets and results of subsidiaries for the period are separately classified as “non-controlling interest” in the condensed consolidated statements of comprehensive income and the condensed consolidated statements of changes in shareholders’ equity.

NOTE 2 – BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Cont’d)

2.1.3 Basis of consolidation (Cont’d)

a) Subsidiaries (Cont’d)

As of the balance sheet date, consolidated companies and the proportion of ownership interest of Vestel Elektronik in these subsidiaries are disclosed in note 3.

Financial assets in which the Group has direct or indirect voting rights equal to or above 50% which are immaterial to the Group financial results or over which a significant influence is not exercised by the Group are carried at cost less any provisions for impairment.

a) Investments in associates

Investments in associates are accounted for by the equity method and are initially recognized at cost. These are entities in which the Group has an interest which is more than 20% and less than 50% of the voting rights or over which a significant influence is exercised. Unrealized gains on transactions between the Group and its associate are eliminated to the extent of the Group’s interest in the associates, whereas unrealized losses are eliminated unless they do not address any impairment of the asset transferred. Net increase or decrease in the net asset of associates is included in the consolidated statements of comprehensive income in regards with the Group’s share.

The Group ceases to account the associate using the equity method if it loses the significant influence or the net investment in the associate becomes nil, unless it has entered to a liability or a commitment. After the Group’s interest in the associates becomes nil, additional losses are provided for, and a liability recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes including its share of those profits only after its share of the profits equals the share of net losses not recognized.

Since Lentatek Uzay Havacılık ve Teknoloji A.Ş. has net liability position and Aydın Yazılım has no material net asset position as of 30 June 2023, carrying value of those investment in associates accounted for by equity method is resulted as nil in the consolidated balance sheets (31 December 2022: nil).

The Group’s voting rights and effective ownership rates in Vestel Lentatek and Aydın Yazılım are 35% and 21% respectively (31 December 2022: 35%, 21%).

The carrying amounts of the investments accounted for using the equity method are reviewed whether there is any indication of impairment at each reporting date. If such an indicator exists, the recoverable amount of the asset is estimated.

NOTE 2 – BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Cont’d)

2.2 Offsetting

All items with significant amounts and nature, even with similar characteristics, are presented separately in the financial statements. Insignificant amounts are grouped and presented by means of items having similar substance and function. When the nature of transactions and events necessitate offsetting, presentation of these transactions and events over their net amounts or recognition of the assets after deducting the related impairment are not considered as a violation of the rule of non-offsetting. As a result of the transactions in the normal course of group’s business, revenue other than sales are presented as net if the nature of the transaction or the event qualify for offsetting.

2.3 Comparatives

Consolidated financial statements of the Group have been prepared comparatively with the preceding financial period, in order to enable determination of trends in financial position and performance. Comparative figures are reclassified, where necessary, to conform to changes in presentation in the consolidated financial statements.

2.4 Restatement and errors in the accounting estimates

Major changes in accounting policies are applied retrospectively and any major accounting errors that have been detected are corrected and the financial statements of the previous period are restated. Changes in accounting policies resulting from the initial implementation of a new standard, if any, are implemented retrospectively or prospectively in accordance with the transition provisions. If changes in accounting estimates are related to only one period, they are recognized in the period when changes are applied; if changes in estimates are related to future periods, they are recognized both in the period where the change is applied and future periods prospectively.

2.5. Amendments in Turkish Financial Reporting Standards

a) Standards, amendments, and interpretations applicable as of 30 June 2023:

Narrow scope amendments to TAS 1, Practice statement 2 and TAS 8; effective from annual periods beginning on or after 1 January 2023. The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies.

Amendment to TAS 12 – Deferred tax related to assets and liabilities arising from a single transaction; effective from annual periods beginning on or after 1 January 2023. These amendments require companies to recognise deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deductible temporary differences.

2.5. Amendments in Turkish Financial Reporting Standards (Cont’d)

Amendment to TAS 12 - International tax reform - pillar two model rules; The deferred tax exemption and disclosure of the fact that the exception has been applied, is effective immediately. The other disclosure requirements are effective annual periods beginning on or after 1 January 2023. These amendments give companies temporary relief from accounting for deferred taxes arising from the Organisation for Economic Co-operation and Development’s (OECD) international tax reform. The amendments also introduce targeted disclosure requirements for affected companies.

b) Standards, amendments, and interpretations that are issued but not effective as of 30 June 2023:

Amendment to TAS 1 – Non current liabilities with covenants; effective from annual periods beginning on or after 1 January 2024. These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability.

Amendment to TFRS 16 – Leases on sale and leaseback; effective from annual periods beginning on or after 1 January 2024. These amendments include requirements for sale and leaseback transactions in TFRS 16 to explain how an entity accounts for a sale and leaseback after the date of the transaction. Sale and leaseback transactions where some or all the lease payments are variable lease payments that do not depend on an index or rate are most likely to be impacted.

Amendments to TAS 7 and TFRS 7 on Supplier finance arrangements; effective from annual periods beginning on or after 1 January 2024. These amendments require disclosures to enhance the transparency of supplier finance arrangements and their effects on a company’s liabilities, cash flows and exposure to liquidity risk. The disclosure requirements are the IASB’s response to investors’ concerns that some companies’ supplier finance arrangements are not sufficiently visible, hindering investors’ analysis.

TFRS S1, ‘General requirements for disclosure of sustainability-related financial information; effective from annual periods beginning on or after 1 January 2024. This is subject to endorsement of the standards by local jurisdictions. This standard includes the core framework for the disclosure of material information about sustainability-related risks and opportunities across an entity’s value chain.

TFRS S2, ‘Climate-related disclosures’; effective from annual periods beginning on or after 1 January 2024. This is subject to endorsement of the standards by local jurisdictions. This is the first thematic standard issued that sets out requirements for entities to disclose information about climate-related risks and opportunities.

2.6 Going concern

The Company prepared financial statements in accordance with the going concern assumption.

2.7. Summary of significant accounting policies

The condensed interim financial statements for the period ended 30 June, 2023 have been prepared in accordance with TAS 34. The accounting policies used in the preparation of the condensed interim financial statements for the period ended 30 June 2023 are consistent with those used in the preparation of annual financial statements for the year ended 31 December, 2022. Accordingly, these condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended 31 December 2022.

2.8. Critical accounting estimates and judgments

The frequency of revaluations is determined to ensure that the carrying amounts of the revalued items of property, plant and equipment are not materially different from their fair values at the end of the reporting period. The frequency of revaluations depends on the change in the fair value of the items of property, plant and equipment. Where the fair value of a revalued asset is considered to be materially different from its carrying amount, the revaluation is required to be repeated and this is done for the entire asset class in which the revalued asset is included as of the same date. On the other hand, it is not considered necessary to repeat the revaluation of property, plant and equipment whose fair value changes are insignificant.

In this context, as a result of the assessments made by the Company management, it is assumed that the fair values of land, buildings and land improvements determined in the valuation studies performed as of 31 December 2022 will converge to their respective fair values as of 30 June, 2023 after deducting current period depreciation.

NOTE 4 - SEGMENT REPORTING

Operating segments are identified on the same basis as financial information is reported internally to the Group’s chief operating decision maker. The Group Board of Directors has been identified as the Group’s chief operating decision maker who is responsible for allocating resources between segments and assessing their performances. The Group management determines operating segments by reference to the reports reviewed by the Board of Directors to make strategic decisions.

Considering the fact that the Group’s risks and rate of returns are dissimilar between product types and between geographical areas, The Group management uses industrial segments as primary reporting format and geographical segments as secondary reporting format.

NOTE 19 – EMPLOYEE BENEFITS

Liabilities for employee benefits:

	30 June 2023	31 December 2022
Due to personnel	561.571	273.856
Social security payables	492.060	180.113
	1.053.631	453.969

Long term provisions for employee benefits:

	30 June 2023	31 December 2022
Provision for employment termination benefits	1.331.233	1.240.006

Under Turkish law, the Group is required to pay employment termination benefits to each employee whose employment is terminated without due cause. In addition, under the existing Social Security Law No.506, clause No. 60, amended by the Labor Laws dated 6 March 1981, No.2422 and 25 August 1999, No.4447, the Group is also required to pay termination benefits to each employee who has earned the right to retire by receiving termination indemnities.

The amount payable is the equivalent of one month’s salary for each year of service and is limited to a maximum of 19.982,83 TL/year as of 30 June 2023 (31 December 2022: 15.371,40 TL/year).

Provision for employment termination benefits is not subject to any funding.

The provision is calculated by estimating the present value of the future obligation of the Group arising from retirement of employees. TAS 19 (“Employee Benefits”) requires actuarial valuation methods to be developed to estimate the enterprise’s obligation under defined employee plans. Accordingly actuarial assumptions were used in the calculation of the total liability which are described below:

The principal assumption is that the maximum liability for each year of service will increase in line with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. An expected inflation rate and appropriate discount rate should both be determined, the net of these being real discount rate. Consequently, in the accompanying financial statements as of 30 June 2023, the provision is calculated by estimating the present value of the future obligation of the Group arising from retirement of employees. As of 30 June 2023, provision is calculated based on real discount rate of 2% (31 December 2022: 2%) assuming 15,8% annual inflation rate and 13,53% discount rate.

The main assumption is that the seniority ceiling for each year of service increases in line with inflation. Thus, the discount rate applied represents the actual rate adjusted for the expected effects of inflation. As the maximum liability is revised every six months, the maximum amount of TL 23.489,83 (1 January 2023: TL 19.982,83) effective from 1 July 2023 has been taken into consideration in calculating the reserve for employment termination benefits of the Company.

g) Dividend distribution(cont’d)

Unless the general reserves that has to be appropriated in accordance with TCC or the dividend to shareholders as determined in the articles of association or dividend policy are set aside; no decision can be taken to set aside other reserves, to transfer reserves to the subsequent year or to distribute dividends to holders of usufruct right certificates, to board of directors members or to employees; and no dividend can be distributed to those unless the determined dividend to shareholders is paid in cash.

On the other hand, in accordance with the Articles of Association of the Company, the net period income is allocated after deducting the accumulated losses from the previous years, if any, as follows:

- a)** As per Article 519 of the Turkish Commercial Code, 5% is allocated to a general legal reserve.
- b)** A dividend is allocated from the remaining amount, at the rate determined by the General Assembly over an amount to be found after the addition of a donation, which is made in line with the Turkish Commercial Code and Capital Market Legislation.
- c)** After the deductions above, the General Assembly has the right to decide how to allocate the dividend to members of the board of directors and officers, employees and workers, foundations established with various purposes, and similar persons and corporations.
- d)** After the amounts stated in paragraph (a), (b) and (c) are deducted from the net period profit, the General Assembly is authorized to allocate the remaining amount as a second dividend or to allocate the remaining amount to its own reserve as per Article 521 of the Turkish Commercial Code.
- e)** One tenth of the amount obtained after a dividend of 5% of the paid in capital and other legal reserve are deducted from the amount that is agreed to be allocated to the shareholders and other persons participating to the profit is added to the general legal reserve as per paragraph (c) of the second clause of article 519 of the Turkish Commercial Code.

NOTE 27 – TAXES ON INCOME (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (Cont’d)

Turkish Tax Legislation does not permit a parent company its subsidiaries and investments in associates to file a consolidated tax return. Therefore, tax liabilities as reflected in these consolidated financial statements have been calculated on a separate entity basis for the fully consolidated subsidiaries.

Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding back non-deductible expenses and by deducting other exempt income. In addition to corporate taxes, companies should also calculate income withholding taxes on any dividends distributed at the rate of % 15, except for companies receiving dividends who are resident companies in Turkey. Undistributed dividends incorporated in share capital are not subject to income withholding taxes.

In Turkey, advance tax returns are filed on a quarterly basis at the rate of 25%, until the 14th day of the following month and paid until the 17th day. Advance tax returns files within the year are offset against corporate income tax calculated over the annual taxable corporate income.

According to the Corporate Tax Law, 50% of the capital gains arising from the sale of tangible assets and 75% of the earning from investments in equity shares owned for at least two years are exempted from corporate tax on the condition that such gains are reflected in the equity.

Under the Turkish taxation system, tax losses can be carried forward to be offset against future taxable income for up to five years. Tax losses cannot be carried back.

As per the Law numbered 7440 "Law on Restructuring of Certain Receivables and Amendment of Certain Laws" published in the Official Gazette on 12 March 2023, the Company is required to calculate additional tax at the rate of 10% on the exemption and discount amounts deducted from corporate income in accordance with the regulations in the laws and the bases subject to reduced corporate tax, and at the rate of 5% on exempt earnings, without being associated with the period earnings, by showing in the corporate tax declaration for the year 2022. As of June 30, 2023, additional tax amounts calculated within the scope of the aforementioned regulation have been accrued in the financial statements of the Company and the effect of tax expense for the period is TL 169.795. The first installment of the tax was paid in May 2023.

Corporate Tax rate will be applied as 20% for the corporate income for the taxation period of 2023.

NOTE 27 – TAXES ON INCOME (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (Cont’d)

Russian Federation

In Russia, corporate tax rate applicable is 20% (2022: 20%). Under the Russian Federation taxation system, tax losses can be carried forward to be offset against future taxable income for up to ten years. There are no restrictions on the amounts subject to net off. On the other hand, tax, currency and customs legislations are subject to various interpretations and changes which can occurs frequently in Russian Federation. Management's interpretation for such legislation, which is applied to the company's operations and activities, can be interpreted by regional and federal authorities in different ways.

The events of the recent past in Russian Federation, shows that risk could be possible on approval of operations and activities, which approved in the past may not be approved in the future as a result of reviews by the tax authorities on legislation. According to a review by the tax inspection authorities, without exceptional circumstances, tax inspection covers three years prior to the final inspection. Under certain circumstances, such views may cover longer periods.

As of 1 January - 30 June 2023 and 2022 tax benefit in the consolidated statement of income is as follows:

	1 January - 30 June 2023	1 January - 30 June 2022
Current period tax expense	(204.196)	(28.287)
Deferred tax benefit	726.831	234.637
Total tax benefit	522.635	206.350

Due to modernization, plant extension and investments incentive documents in Manisa Organized Industrial Zone, the Group has reduced rate of corporate tax advantage.

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising between their financial statements prepared in accordance with CMB Communiqué II, No. 14.1 and their statutory financial statements. These temporary differences usually result from the recognition of revenue and expenses in different reporting periods for the Communiqué and tax purposes.

NOTE 27 – TAXES ON INCOME (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (Cont’d)

As of June 30, 2023, the tax advantage amounting to TL 500.651 that the Company will benefit from in the foreseeable future is reflected in the financial statements as deferred tax asset. In line with the precautionary principle of accounting and in line with the budget made by the Company, the tax advantage arising from the investment incentives that the Company expects to benefit from in the coming year has been recognized as deferred tax asset in the financial statements. However, the tax advantage amounting to TL 3.080.024 that the Company is entitled to use has not been recognized in deferred tax assets in accordance with the precautionary principle of accounting.

Total tax advantage arising from investment incentive certificate used in the current period is TL 129.581.

The Company assesses the recoverability of deferred tax assets related to investment incentives based on business models that include estimates of taxable profit. These business models include forward-looking management estimates such as sales volumes, selling prices and exchange rate expectations. As a result of the sensitivity analyses on the forward-looking use of investment incentives, it has been concluded that a 10% increase/decrease in the related estimates has no impact on the recoverability of the related deferred tax assets.

The movement of net deferred tax assets and liabilities is as follows:

NOTE 30 – FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

Foreign currency risk:

The Group is exposed to exchange rate risk due to its foreign currency denominated transactions. The main principle of foreign currency risk management is to maintain foreign exchange position at the level that minimizes the impact of foreign exchange fluctuations.

Derivative instruments are used in foreign currency risk management where necessary. In this respect the Group mainly prefers using foreign exchange forward contracts.
